

Vidyarth Platform Overview

Introduction

Vidyarth is a centralized platform designed to support students through every stage of the placement process

- Provides access to detailed company information, job descriptions, and domain-specific preparation resources across Consulting, Finance, Marketing, Product Management, and more
- Students can view their shortlists, track CV submissions, explore curated videos, and stay updated with the latest placement-related news and announcements
- Offers Mock interview features and personalized dashboards, helping students stay organized, informed, and fully prepared for opportunities ahead.

1. STUDENT Functionality

Feature	Description
Dashboard	View personalized overview including announcements, shortlists, and recommended content
Company Section	Browse companies, view job descriptions, logos, and preparation content
News Section	Read the latest placement news, tagged by domain or company, with date filtering
CV Prep	Access CV guidelines, examples, and CV-related announcements
Domain Prep	Explore preparation material for domains like Consulting, Finance, Marketing, etc.
Mock Interviews	Practice through AI-powered or manually scheduled mock interviews
Shortlists	View current and past shortlists; download JD and prep resources
My CV	View and download your verified CV(s)
Profile	Edit personal details and preferences
Announcements	View company-specific or platform-wide announcements
Videos	Watch curated, domain- and company-tagged videos
Compendium	Browse and download multi-domain/company PDF resources

2. DISHA & Placement Committee Functionality

Feature	Description
---------	-------------

Feature	Description
Manage Companies	Add/edit/delete companies, update logos and tag domains
Manage JD	Upload/edit JD files, associate with domains and placement cycles
Manage News	Create, tag, and publish domain-specific or company-specific news
Manage Videos	Add/edit video entries, upload thumbnails, embed YouTube videos
Manage Cohort	Assign DISHA coordinators, set PCOM IDs, and edit student cohort data
Upload CVs	Manage CV submissions, status, and approval workflows
Send Emails	Trigger event-based emails with pre-designed HTML templates
Notifications	View, test, and mark email notifications as handled
Placement Cycles	Create and manage job cycles; tag them active/inactive
Analytics/Tracking	Monitor video views, CV downloads, and platform engagement (planned)

3. Cross-Role Functionality

Feature	Description
Email Templates	Styled HTML templates with dynamic placeholders based on notification type
Firebase Storage	Secure storage for all PDFs, JD files, and thumbnails
Role-based Sidebar	Dynamic sidebar with access-control based on user role
Responsive Design	Fully mobile-optimized design across all pages and components
Search & Filters	Powerful filtering across lists (company, domain, date, keywords)
Animations & UI Polish	Framer Motion animations, tooltips, skeleton loaders, hover states, spinners
